Request for Student Record Data

Requests for student records may be made through the Registrar’s Office for educational purposes, by WSU departments and certain non-WSU entities. Requests for data that can be fulfilled within the department, college or division using the student data warehouse should be done by that unit. Requests that cannot be fulfilled internally by a department, or those being requested from outside WSU, can be made to the Registrar’s Office using the attached form.

Washington State University may release student directory information to WSU administrative departments, outside entities conducting research as well as to student groups (RSOs) and certain other groups. Directory Information includes the following: name (including any former name), local and permanent addresses, telephone numbers, email addresses, major and minor fields of study, participation in officially recognized sports, weight and height of members of athletic teams, dates of attendance, enrollment status (e.g., undergraduate, graduate; full-time or part-time), grade level, degrees, certificates, and awards received, including the President’s Honor Roll, and the most recent previous educational institution attended by the student. Non-directory, or confidential student record information will only be released based on legitimate educational interest within WSU, and in limited cases outside the institution, such as educational assessments and approved research.

Access of education records for personal interests is strictly prohibited.

Education records can be released to some organizations conducting studies and for legitimate academic research provided that

- The procedures utilized and the reported findings do not violate the student's confidence;
- Students' names will not be included in the study or in any way linked with the data;
- Case histories and case records are sufficiently disguised to prevent identification of the individuals involved;
- The student's written permission is obtained where individual identification occurs; and
- Such information will be destroyed when no longer needed for the purposes for which it was provided.
