

How to Apply for Graduation

1. Students who have completed 90 credits and are certified in their major are eligible to apply for graduation.
2. It is recommended that students apply at least 2 semesters prior to the expected graduation date.
3. The graduation date is the semester **when all requirements will be satisfied**, not the semester the student will participate in commencement.
4. The online graduation application can be found in the drop down menu in student center. See below.
5. Additional information can be found at www.graduations.wsu.edu
